Profile

Product Designer and Computer Science graduate. After moving from Flutter development to design, I use my technical background and experience as a programming instructor to solve problems through user research and clear, functional interfaces.

Education

B.Sc. in Computer Science, Mansoura University **10/2022 – 07/2026**

Experience

Programming Instructor, NEXERA **01/2026**
Teach Python programming to learners of all ages and levels.

Instructor, Emtiaz Academy **02/2023 – Present**
Teach Python programming for kids through interactive exercises and practical activities. Also work as an offline trainer across multiple educational centers.

Freelance Video Editor **12/2024 – 10/2025**
Completed training at Khater Academy and worked on various projects.

Projects

NUZUL, Hotel ERP System (Product Designer) **11/2026**
Designed a hotel ERP covering front desk, finance, housekeeping and management.

Hitchy, Carpooling Platform (Product Designer) **11/2026**
Designed a platform for people traveling in similar directions to share car seats and trip costs.

SignConnect (Graduation Project) **10/2025 – 02/2026**
Mobile app that translates sign language into text and voice in real time, bridging communication between deaf or hard-of-hearing and hearing users. Tested with Deaf and speech-impaired users.

Monoguide **03/2026 – 04/2026**
Mobile app guiding first-time monorail users through navigation, ticket activation, gate scanning and live ride tracking.

FlowPass **04/2026**
Smart queue management case study for clinics and medical labs, including UX research, personas, journey mapping and wireframing.

Bill Splitting App (على حسابك) **03/2026**
Mobile app that manages shared expenses and calculates each person's share.

Ramadan Potluck Organizer (أُنس) **02/2026**
Mobile app with an interactive Table Canvas that prevents duplicate dishes at Ramadan gatherings.

Zen Roots, Flutter Developer (IEEE DevDuel) **05/2024 – 06/2024**
Cross-platform wellness app. Implemented responsive UI from Figma designs and managed state, navigation and reusable components.

Skills

Design: Figma, Design Systems, Wireframing, Prototyping, Canva

UX: User Research, Persona Creation, User Journey Mapping, Competitive Analysis, User Flow Creation
Technical: Dart/Flutter, Python, C++, C#, HTML, CSS, Microsoft SQL Server, Data Structures, OOP
Creative: Adobe After Effects, Premiere Pro, Audition

Awards and Certificates

- Second Place, Computer Vision, LeafSense (12/2025)
- Figma UI/UX Crash Course, Zero to Hero (05/2026)
- Khater Academy Video Edit (09/2025)
- CAT Media Competition (09/2025)
- NTI UI/UX Certificate (07/2025)
- IEEE DevDuel (10/2024)
- IEEE Computer Society Flutter (06/2024)
- DevFest Mansoura Hackathon (02/2023)
